DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I, claims 1-15 and 17-25, in the reply filed on 8/29/05 is acknowledged. The traversal is on the ground(s) that claims 1, 2, 6-12 and 17-20 are generic. This is not found persuasive because the independent claims 1, 12 and 17 define a bag comprising a stem strap configured for attachment to a stem cylinder of a bicycle, as shown in Species I, figs. 1-4. However, in Species II, figs. 5-9, defines a bag comprising a down tube configured to attachable grasp a top tube; and the Species II does not including a stem strap. Therefore, claims 1, 2, 6-12 and 17-20 are not generic. A generic claim should include no material element additional to those recited in the species claims, and must comprehend within its confines the organization covered in each of species (see MPEP 806.04 (d)).

The requirement is still deemed proper and is therefore made FINAL.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the bag comprising a down tube strap attached in proximity to the stem trap (in claim 5), and the second right bar strap and the second left bar strap attached to the side panel (in claims 6, 12) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended

Application/Control Number: 10/637,106

Art Unit: 3754

replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 5, 6 and 12-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Application/Control Number: 10/637,106 Page 4

Art Unit: 3754

The bag comprising a down tube strap attached in proximity to the stem trap (in claim 5), and the second right bar strap and the second left bar strap attached to the side panel (in claims 6, 12) are not supported in the specification in the Species I, figs. 1-4).

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 6. Claims 1, 2, 7, 8 11, 17-20 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Hine, Jr. (4,056,219). Hine discloses, in figs. 1 and 2, a carrier bag comprising a suspension panel, right and left bar straps 31 being attached to the suspension panel configured for attachment to handlebar cylinders 16, a stem strap 31 being attached to the suspension panel configured for attachment to stem cylinder 21, and an engagement mechanism (loop and hook).

Claim Rejections - 35 USC § 103

- 7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 8. Claims 9, 10, 21 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hine, Jr. (4,056,21). It would have been an obvious matter of design

Art Unit: 3754

choice to substitute the engaging mechanism in the Hine, Jr. bag with one selected from a group as claimed in order to secure the straps to the attached objects.

9. Claims 3, 4, 24 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hine, Jr. in view of Braun (DE 10202530) or Noice (4,096,978).

Hine, Jr. does not disclose the bag comprising a compress cord.

Braun or Noice teaches a bag comprising a compress cord.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the Hine, Jr. bag with a compression cord, as taught by Braun or Noice, in order for the bag can be adjusted to match variously sized loads.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LIEN TM NGO whose telephone number is 571-272-4545. The examiner can normally be reached on Monday through Friday from 8:30 AM -6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, MICHAEL MAR can be reached on 571-272-4906. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
